a
Ground range over the sampled designs and days
6.9% reach 200 m
[6.6, 7.1]
none of 40,000
reach 200 m
into wind
along slope
samples (of 40,000)
ground range (m, capped at 400)
b
Pitch doubling time and flight duration
human
reaction
time
median 0.29 s
median 24 s
flights reaching 200 m along the slope
time (s, log scale)
no tail: time to double pitch error
flight duration
